

Create a profile in 30 seconds and manage your fleet for free

Completely free

Made from sailors to sailors

Easy to use

# Rent your boats to millions of travellers

Sailogy allows professional charter companies to list and manage their fleet.  
You can publish your boats for free and only pay in case of successful bookings.

## How it works

1

### List your boats

Publish photos, videos, descriptions of each boat of your fleet. We will assist in making your boats shine in order to receive more booking enquiries. You can even quickly customise extras and boat equipment.

2

### Set prices and discounts

Setting prices, offers and discounts has never been easier. Sailogy offers you a professional tool, designed around professional charter operators to manage seasons, special offers and bundles. Intuitive and fast.

3

### Manage calendar

Via Sailogy you can run your entire business. Our calendar runs options, maintenance period, last minute offers and early bookings. Charter operators can even import their existing orders in order to use one single interface.

4

### Make bookings

Customers will autonomously book your boats or get in touch with you to finalise orders. Payments are collected by Sailogy in a secure way and funds are transferred to you 30 days before departure (excludes last minute).

Go Next ➞

# Chose your 1st Marina

► Step by step / Marina

Your first step. Tell travellers where they can find you. If you operate in multiple harbours please choose the first one in this occasion. Our system will give you the possibility to add as many marinas as you want in the next steps.

1

Chose your city, input the precise address and give a name to your marina. This is supposed to be the official name of the harbour, the one travellers find in road signs and maps.

A Map is provided to travellers to reach the harbour on the day of departure. Be as accurate as possible in order to get more bookings.

2

A map will allow you to select the exact position of your base within the harbour.

### 3 Boat pictures

Two boat photos are shown. A button with a camera icon and the text 'Drag the pictures to re-order them' is also present.

# Upload your first boat

► Step by step / Boat

This is where the game starts. Uploading your first boat is the best way to test how easy and intuitive the Fleetboard is. Choose a boat of which you have great material, such as pictures, description and so on.

**1** Give a name, choose a boat type, describe your boat and finally select a model from the provided list. The specs of the boat will load automatically. You will be required to select the year of the boat and, if available a refit year. Additionally it is important you double check the number of cabins, the number of crew cabins and the total number of guests that can go on board.

Equipment is a fundamental aspect of your boat description. Too many equipments confuse customers, there is no need to specify that your boat has the anchor, the forks and knives and the life vests.

**2** Please add all equipments available on your boat. If your boat has something special on board please write it in the custom equipment. Use english language, just write the name of the equipment without specifying the amount (don't write "lazy bag (2)" but just "Lazy Bag")

**3** Upload the original pictures of your boat. Do not upload "model" photo taken from brochures. Customers want to see the product for which they pay. Always start with a photo in which the boat is seen entirely from outside.

1

Seasons and prices

Add a new season

Nabucodonosor (1 cab)

Manfredonia

2

Extra amenities

Here you can add all compulsory and optional extras for each yacht according to your price list. Please, don't use unclear names for your extras (ex. charter pack or all inclusive). Be clear and write an explanation (eg. Charter pack: final cleaning, bed linen, towels, outboard engine), so your client won't have any questions.

☐ Online payment

# Chose your prices

► Step by step / Pricelist

Pricing is possibly the most important strategic decision in order to receive more online bookings. On this page you can add the charter seasons (ex. "low season", "high season") with their starting and ending dates. For each season your boat can have a different price per week. Remember this is the final price that the customers pay, which includes all commissions paid to agents.

- 1
- Start by adding all seasons. You only have to select the start and finish dates. Once this is done simply apply your desired price per week to each season.

Payable extras are a dangerous tool. Our statistics show a high number of orders lost due to unclear extras. Please be very clear and keep in mind that customers don't understand things like "comfort package", "starter pack", "transit log". If they see a mandatory extra that is not clear they would probably ask questions (wasting your time) or just look for another boat. Instead of "comfort package" write "final cleaning, bed linen, outboard engine" and whatever is relevant.

- 2
- First give a name to your extra, then choose if it is mandatory or optional. Also, you can choose a price and specify if it should be paid "per person" (ex. bed linen), "per week" (ex: outboard engine), "per day" (ex: skipper) or "per booking" (ex: final cleaning). Finally you decide if you want this extra to be paid online by customers or directly to you on the day of check-in.

# The Boat Manager

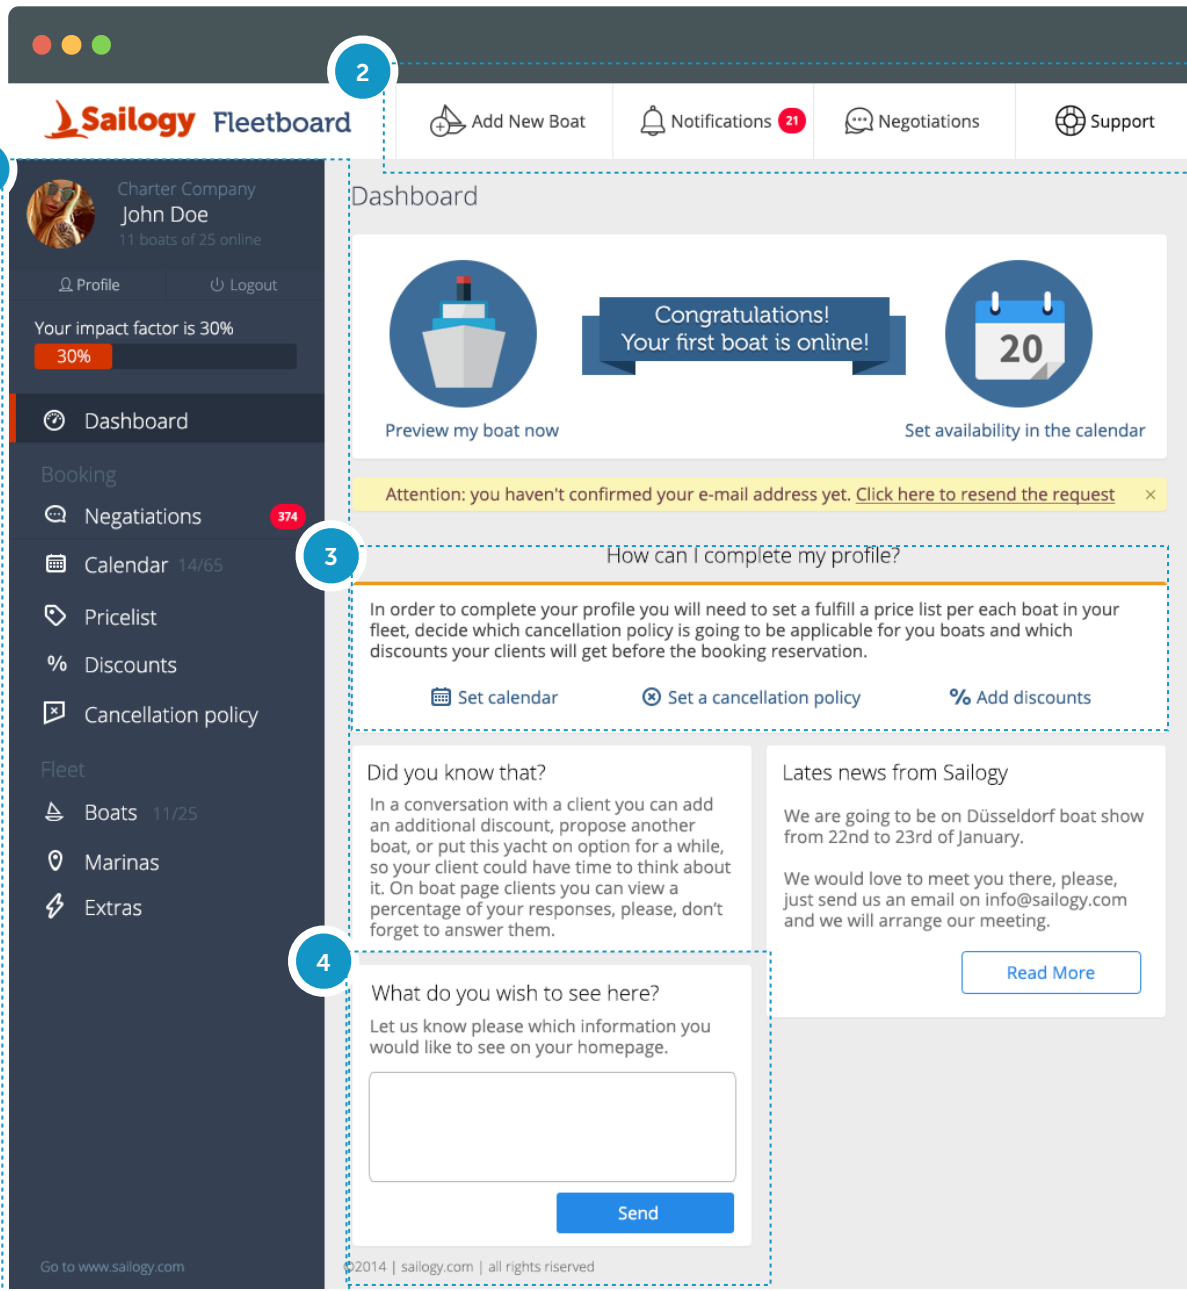

► Step by step / Profile

This page is about you. Customers want to see your face and know your name before they book. Remember that they are spending a significant amount of money; booking a sailing vacation requires a lot of trust and therefore a clear presentation of yourself will give higher confidence.

**1** This part is visible to the final customer. Please choose a picture of yourself. Do not upload your company's logo or photo of your boats. Your mobile phone number will be used to send SMS every time you receive a booking.

Some information are only used by Sailogy for administration purposes such as invoicing, payments and contracts. Please make sure all information about your company are updated.

**2** Make sure you fill up the field "number of boats" stating the total number of yachts you manage.

# Welcome to your dashboard

## ► First usage Dashboard

This is main page of the Fleetboard. Every time you come back to our site you will log into this page that is designed to provide you a snapshot of your business.

- 1 Use the vertical menu to browse through all the sections of the Fleetboard. Here you can add more boats, more marinas and fully customise your fleet. The "Negotiations" button shows your private messages to customers.
- 2 This is a quick menu to access your most used functions, such as adding a new boat or checking your messages.

We designed the Fleetboard in order to be used every day. We will alert you in case your profile needs an update and we are happy to hear what do you think about new features.

- 3 This section alerts you in case your profile is not completed. Follow the links and make the necessary changes/updates in order to start with the bookings.
- 4 Have we missed anything? Please let us know and we will make all changes according to your preferences.

# Talk to your customers!

## ► Booking - Negotiations

A key unique feature of Sailogy is the possibility to have a direct and transparent conversation with your customers. Our statistics shows a 500% higher booking rate for those who reply to customers within 2 hours. It is an incredible selling tool, free to use for you.

This is an overview of all conversations with your customers. Each conversation is related to a specific request. Customers will not be able to send you emails unless they have chosen a boat and a week/price. You can quickly see and filter the negotiation status in order to always give the right priority to messages.

Hello Robert, thank you so much for contacting me.  
I'm gonna make a new specific proposal and I really hope that it can fit your needs. I look forward to hearing from you.  
Have a nice day.

Robert Vacation
Set. 25, 2014 12:35

Hello Nicolas, unfortunately I have a problem for the selected dates, is possible to change the period? And is this the final price or there is a little discount for an old returning client like me?  
Thank you so much.

# Single Negotiation

► Booking - Negotiations / Negotiation detail

Most customers have last minute questions to ask just before booking. In this page you can make sure they are fully convinced and ready to finalise the payment.

1 This is a summary of the request. Here you have details about the customer and about the product they are interested in. Boat, Base, Period, Price. You can reply with a new message or make a proposal (see next page).

2 All the message exchanged with the customer are here. You will always be able to recall previous interactions.

3 The calendar will give you a quick view of the availability of this particular boat which will help in order to make better proposals.

#### Tip

In a conversation with a client you can add an additional discount, propose another boat, or put this yacht on option for a while, so your client could have time to think about it.

# Make a selling proposal!

► Booking - Negotiations / Negotiation detail / New proposal

Here is where you can customise the proposal in order to do whatever is needed to close the booking. Need to change dates? Want to offer a different boat? Or maybe just a quick (small) discount. Using this page you can send a unique proposal for a particular client, only him will see it.

You can make a special price only for this customer. Please edit the new final price of the boat, which does not include extras. Make sure you don't forget that you are talking directly with final customer so the price should always include agency commissions. You can make the discount "valid until" a precise date in order to close the booking faster.

If customer needs a shorter/longer period you can set here the departure date and the number of days. Only the customer will be able to see this.

If you want to propose a different boat simply pick one from your fleet. In all cases you can customise your offer with a dedicated message to the customer.

# Availability of your fleet!

► Booking - Calendar / Weekly view

The updated calendar will give a possibility to your customers to book any of your boats online without asking about the availability.

1 This section will remind you about things that you might forget to do. In case they are not necessary for you at this moment, you can just close them, please, don't forget to finish them.

2 Your calendar is viewable for weekly and daily prices, and can be filtered per each boat.

3 If you would like to change a price for a particular boat for a particular week or change the status of a boat, just click on the week price and the window of the calendar event will pop up. When you change the status of a boat you also can add an information regarding an additional discount if it was applied. Feel free to use notes, which are visible only for you.

# Applicable discounts

## Booking - Discounts

Discounts play a magnificent role for a customers' decision. Sometimes it's a crucial point before the booking confirmation. Please, be sure that all discounts which have to be applied to your fleet are added correctly.

1

You may add a maximum discount for all boats in your fleet. Charter duration of 2 3 or 4 weeks, will most probably have a better discount for your customer, please, apply them accordingly. Any of your discounts you may inactivate in any moment.

Don't forget about those customers who want to book a boat 1-2 weeks before the departure or, vice versa, when they think about their holidays 6-7 month in advance.

2

For last minute discount you have to add a number of days before the departure when the discount will be still applicable. For early booking just add a final date, when any yacht can be booked with an early booking discount.

The screenshot displays the Sailogy Fleetboard interface. On the left is a dark sidebar with a user profile for 'John Doe' (Charter Company, 11 boats of 25 online), navigation links (Profile, Logout, Dashboard, Booking, Negotiations, Calendar, Pricelist, Discounts, Cancellation policy), and a 'Fleet' section with 'Boats 11/25' highlighted. The main content area is titled 'Fleet' and includes a filter bar, a '+ Add a New Boat' button, and a 'Show archived boat' checkbox. Below these are three boat cards: 'Online', 'Not Online', and 'The Best', each showing a 'Black Star (3 cab)' boat. The 'Online' card has 'Preview', 'Edit', and 'Remove' buttons. The 'Not Online' card has a 'Preview' button. The 'The Best' card has an 'Add New Boat' button. A dashed blue box highlights the boat cards and the 'Add New Boat' button. At the bottom, there is a copyright notice: '©2014 | sailogy.com | all rights reserved'.

# Your fleet page

► Fleet - Boats / Gallery

We created this page in order to give you a possibility to see the final customised product before it will go online.

You can use different preview lists - view as a gallery or as a list. Sometimes it happens when you have to remove a particular boat from your fleet and we designed our fleetboard in a way that all removed boats automatically go to your archive. It was made in order to save your time, as you just need to put it online in case you've changed your mind.

All boats from your fleet are listed here. The unique feature on the Sailogy's platform gives you a possibility to check how each boat looks like for your customers using "preview" button. If a boat is missing an important information it won't go online. Be sure that your fleet is shining.

# Boat page

Fleet - Boat / Details

We would say that this is the most important page from the decision making point of view of your customers. If your boat doesn't have a piece of information which may be a particular advantage for your customer, he won't rent a boat or he will start to ask questions and wasting your time.

1

This line above is an indicator, it shows the percentage of your boat on the way to be the best. As a result your boat becomes "the best" and customers won't have any questions about the equipment or extras.

2

You have 5 pages for each boat, we divided them as follows: boat details, real photos, equipments, extras and discounts.

3

This section consists of the general information about your boat. It is important you double check the number of cabins, the number of crew cabins and the total number of guests that can go on board.

The screenshot shows the Sailogy Fleetboard dashboard. The top navigation bar includes 'Add New Boat', 'Notifications' (21), 'Negotiations', and 'Support'. The left sidebar contains a user profile for 'John Doe' (Charter Company, 11 boats of 25 online), a 'Logout' button, and a 'Your impact factor is 30%' badge. Below this are links for 'Dashboard', 'Booking', 'Negotiations' (374), 'Calendar' (14/65), 'Pricelist', 'Discounts', and 'Cancellation policy'. The 'Fleet' section is expanded, showing 'Boats' (11/25), 'Marinas', and 'Extras'. The main content area is titled 'Boat' and features a status bar with 'Not Online', 'Your Boat 30%', 'Online', and 'The Best'. Below this is a tabbed interface with '1. Details', '2. Pictures', '3. Equipments', '4. Extras', and '5. Discounts'. The 'Pictures' tab is active, showing two boat photos and a dashed box with a camera icon and the text 'Drag the pictures to re-order them'. At the bottom of the photo area are buttons for 'Archive this boat' and 'Save and do the Pricelist'.

# Real photos of your boat!

► Fleet - Boat / Pictures

The most important section for the client is real photos of the boat. Please, don't upload boat models as your customers can check them in the internet, they want to see a real product, be sure that all photos have a good quality, you may check how your boat looks like for the customer.

1

We kindly ask you to order them as following: photos from outside and then all photos of the saloon, cabins and wc/showers of the boat.

# Equipment of the boat

► Fleet - Boat / Equipments

We chose 36 main equipments for a boat and divided them in 3 sections: Cruise, Hospitality and Comfort.

1 Please, mark all available ones for your boat and in case if you have something unique that has to be added as an equipment you can write it in a custom equipment section. Use english language, just write the name of the equipment without specifying the amount (don't write "lazy bag (2)" but just "Lazy Bag")

# Home base of your boat!

Fleet - Boats / List

It's a very important page as your customers will search for a particular vacation for their holidays. Please, be sure that all information is correct, otherwise they won't find your boats in the search of Sailogy's website.

1

Add all necessary information about the home base and what is very important to mark an exact position on the map where your fleet is located. All customers receive vouchers after the booking confirmation which includes a map of the location.

2

If you have high quality photos of the home base, you are very welcome to add them, as it works as an inspirational gallery for all customers. Another significant point refers to the home base facilities, please, mark all available amenities for the clients.

# Extras of all boats

Fleet - Boats / List

This page is an overview of all extras. You can edit your obligatory and optional extras here. The most common questions from our customers are always about extras, please, don't forget to use clear words, as your customers don't know what charter pack means.

1 You can choose a price and specify if it should be paid "per person" (ex. bed linen), "per week" (ex: outboard engine), "per day" (ex: skipper) or "per booking" (ex: final cleaning). Finally you decide if you want this extra to be paid online by customers or directly to you on the day of check-in.
